### DETAILED ACTION

Claims 1-13, 16-23, and 28 are pending in this application.

#### *Election/Restrictions*

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1. In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Due to the variables in the claims, e.g. Y, R1, and R2 etc. . . and their widely divergent meanings, a precise listing of inventive groups can not be made. The following groups are exemplary:

Group I claims 1-13, drawn to a method of use wherein Y is a halogen atom; classified in class 549 subclass 346+.

Group II claims 1-13 drawn to method of use wherein Y is a group  $-NR^1R^2$ , wherein  $R^1$  and  $R^2$  together with the interjacent nitrogen atom represent pyridyl; classified in class 546 and subclass 281.7+.

Group III claims 16-23 and 28 drawn to compounds, compositions, and a process wherein Y is aryl; classified in class 549 and subclass 346+.

Group IV claims 16-23 and 28 drawn to compounds, compositions, and a process wherein Y is a group  $NR^1R^2$ , wherein  $R^1$  and  $R^2$  together with the interjacent nitrogen atom represent imidazolyl; classified in class 548 and subclass 300.1+.

Again, this list is not exhaustive. It would be impossible to formulate a complete list under the time constraints due to the sheer volume of subject matter instantly claimed. Therefore, Applicant may choose to elect a single invention by identifying another specific embodiment not listed in the exemplary groups of the invention and examiner will endeavor to group the same.

With the election of a specific exemplified compound, a generic compound will be identified by the examiner as the inventive group for examination.

The claims herein lack unity of invention under PCT Rule 13.1 and 13.2 since the compounds defined in the claims lack a significant structural element qualifying as the special technical feature that defines a contribution over the prior art. The compounds claimed contain substituents Y, R<sup>1</sup>, R<sup>2</sup>, etc. . . which does not define a contribution over the prior art. The substituents vary extensively and when taken as a whole result in vastly different compounds. Accordingly, unity of invention is considered to be lacking and restriction of the invention in accordance with the rules of unity of invention is considered to be proper. Moreover to not restrict herein, would impose a burden on the examination of this application.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim

remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sonya Wright, whose telephone number is (703) 308-4539. The examiner can normally be reached on Monday-Friday from 8:00 AM - 5:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mr. Joseph K. McKane, can be reached at (703) 308-4537. The Unofficial fax phone number for this Group is (703) 308-7922. The Official fax phone numbers for this Group are (703) 308-4556 or 305-3592.

When filing a FAX in Technology Center 1600, please indicate in the Header (upper right) "Official" for papers that are to be entered into the file, and "Unofficial" for draft documents and other communications with the PTO that are not for entry into the file of the application. This will expedite processing of your papers.

Communications via Internet e-mail regarding this application, other than those under 35 U.S.C. 132 or which otherwise require a signature, may be used by the applicant and should be addressed to [joseph.mckane@uspto.gov]. All Internet e-mail communications will be made of record in the application file. PTO employees will not communicate with applicant via Internet e-mail where sensitive data will be exchanged or where there exists a possibility that sensitive data could be identified unless there is of record an express waiver of the confidentiality requirements under 35 U.S.C. 122 by the applicant. See the Interim Internet Usage Policy published by the Patent and Trademark Office Official Gazette on February 25, 1997 at 1195 OG 89.
